because of man's inconsistency on this subject.

The idnd of a woman a man approves of theoretically, and the kind he encourages practically are two very different persons, and this useful piece of information has not escaped the notice of those whom it most concerns.

Man commends the grab, but he marries he butterfly. The dear domestic girl, who takes care of her little brother and sisters, and helps with the housework, and is kind to eid ladies, is the one is extens, and helps with the housework, and is kind to eid ladies, is the one is extens, and helps with the housework, and is kind to eid ladies, is the one is extens, and helps with the housework, and is kind to eid ladies, is the one is extens, and helps with the housework, and is kind to eid ladies, is the one is extens, and helps with the housework, and is kind to eid ladies, is the one is extens, and helps with the housework, and is kind to eid ladies, is the one is extens the provided and cautioned him about not letting amart Alesks put anything over on him.

comfortable, sensible, and economical. Very, very economical.

Yet irrith compels one to admit that the women who appear in such garbare characterized by men as frumps, and that no ragn would be seen in public with much a one. Moreover, no woman who represents a man's ideal is ever popular with him.

No woman in thick-soled shoes, with flat heels, ever walked over a man. He will stand up before her and fight her to a finish for his rights. It is her fivolous sister, in fluffy gowns and high-heeled satin slippers who sets her toot upon his fack whenever she pleases.

As a matter of fact the masculine "if I work" a woman theory won't hold water. Most women have had considerable experience in being a woman, and understand the graft and how to work it. He man were a woman, and want to catch a husband, he would have to pursue pretty much the same tactics women now do to get one. Otherwise he would be neither a man nor a woman. He would be a girl bachelor.

And I woman were men they would not be the happy combination of Sir Gollahad, and a movie here, and Mr. Reckefelier that they think iney would be. They would find it hard to make a living and be worried by bilts, and get discouraged, and fat, and baid-headed, and cantankerous at home just as men arg.

SWEET POTATO SEEDS

GOSSIP BY K.C.B.

ON THE arm of a man IN A Southern town. WERE THREE little pups. AND AN actor man. WHO WAS in town. FOR A couple of days. AND MAYBE was lonesome. OR MAYBE liked flogs. STOPPED TO pet the pups. AND ONE of them. MADE AN awful hit. BY CHEWING his thumb, AND CHEWING his chin. WHEN HE picked him up. AND CHEWING his car. AND THE actor man.

INQUIRED THE price.

AND WHAT they would be.

WHEN THEY All grew up. AND HIS bought the pup. AND BECAUSE he was playing. WITH OTIS Skinner. HE NAMED him Tony FOR "ANTONIO." AND 80 it happened. THAT THE pup came North. IN A little dog box AND WAS raised in a flat. AND STAYED very small, AND CAME to be. JUST A mongrel dog. AND SUMMER came. AND HIS master moved. AND THEY have a car. AND WHEREVER they go.

YOU'LL ALWAYS find.

THIS AUTO car. IS THE only thing. THAT TONY knows. IN THE traveling line. OR RATHER II was. TILL A week ago. AND THEN one day. THE MASTER went out. AND BOUGHT him a horse. WITH A buggy thrown in. AND DROVE it home. AND AFTER dinner. ON THAT same day. HE TCHED up the horse, AND TOOK Tony in. AND TONY sat. ON THE buggy floor. WITH HIS head stuck out. ROUND THE dashboard thing. AND HE glued his eyes. TO THE horse's legs. AND FOR all of a week HE'S BEEN out every day. AND ALL of the time. HIS EYES never leave. THOSE POUR strange things

THAT TONY'S right there.

THAT HE first went out.

BY THE driver's seat.

AND SINCE the days.

AS THEY go along. AND WE'VE figured it out. THAT HE'S trying to learn. WHAT THE mischief it is. MAKES THE darn thing go. I THANK you.

THAT GO down to the ground.
AND THAT pound on the road.

After the sarly morning hours this is a most unfortunate day, according to astrology. Early in the morning Mercury and the Sun are in benefic aspect, but after the noon hour Uranus, Margand Saturn all exercise malefle power. Contracts or letters written before 10 o'clock should be fortunate, but later the stars indicate danger of misinterpretation and even fraud.

There should be good luck attending those who seek positions or promations before the Sun has risen high in the sky. It is an auspicious sway under which to apply for political appointments.

Mars is in a place read as forcasting.
